

Company Quality Policy

Akhdar General Trading LLC is a customer-focused trading company dedicated to enhancing global food security.

We are determined to contribute to global food security by bringing together suppliers and buyers of agricultural products from around the world, connecting farmers with customers in regions with complex political situations and unmet agricultural needs, as well as optimizing costs and improving logistics effectiveness.

As we strive to become one of the most reliable and efficient trading companies, we acknowledge the fact the way we conduct our operations is as important as the business itself. For this reason, we are committed to full transparency, analytics-based pricing, financially stable deals, the use of financial transaction alternatives, smart, evidence-based decision-making models and embedding sustainable practices in all our business processes.

Our business model enables us to build and manage complex supply chains based on all applicable international trade terms, as well as local Ex Tank delivery operations, while ensuring control over product quality and safety at every stage.

Our membership in the Federation of Oils, Seeds and Fats Association (FOSFA), the Grain and Feed Trade Association (GAFTA) and Global Pulse Confederation (GPC) ensures that trading with us is fair, impartial, simple and reliable.

Our activities are based on four pillars of sustainable development:

- Excellence in everything we do.
- Empowerment of people and communities.
- Access to sustainable agricultural products.
- Protection of the environment.

We ensure the quality of our services by achieving the following objectives:

- Customer focus, continuous improvement of customer satisfaction, and the development of long-term partnerships.
- Risk-based thinking and the use of emerging opportunities.
- Continuous professional development of our team and their involvement in improvement activities.
- Compliance with all applicable legal and other mandatory requirements.
- Continuous improvement of the effectiveness of the management system.

We are proud that our extensive distribution network, commitment to sustainable practices and quality management principles enable our customers to benefit from cost-effective operations and competitive products.

The management of Akhdar General Trading LLC is committed to adhering to this Policy and ensuring that all team members have the necessary resources and conditions for its effective implementation.

CEO of Akhdar General Trading LLC
Raimund Friedrich Scheffler
